

UNDERGRADUATE PROGRAMS

Academic Programs

UW-Parkside offers approximately 40 undergraduate academic majors as well as a number of pre-professional programs; education licensure; and specialized programs such as environmental studies, sustainable management, ethnic studies and women's, gender and sexuality studies. A consortial program is offered in nursing. The university's academic programs are organized under four Colleges: Arts and Humanities; Business, Economics, and Computing; Natural and Health Sciences; and Social Sciences and Professional Studies. UW-Parkside is accredited by the Higher Learning Commission and is a member of the North Central Association. For information on UW-Parkside graduate programs see the Graduate Programs and Policies section of this catalog.

Majors for Bachelor's Degrees

In order to graduate with a bachelor's degree, every degree-seeking student must complete a major with a minimum GPA as specified by the major department or program. Usually, this minimum major GPA is 2.00 on a 4.00 scale, but some majors require a higher GPA. Students with transfer work must also attain the minimum major GPA (2.00) on a combination of transfer credits accepted toward the major and credits attempted toward the major at UW-Parkside. At least 15 credits of upper level (300 or above) major course work must be completed at UW-Parkside.

Majors for Associate Degrees

In order to graduate with an associate degree, every degree-seeking student must complete a major with a minimum GPA as specified by the major department or program. Usually, this minimum major GPA is 2.00 on a 4.00 scale, but some majors require a higher GPA. Students with transfer work must also attain the minimum major GPA (2.00) on a combination of transfer credits accepted toward the major and credits attempted toward the major at UW- Parkside. Associate degree-seeking students must earn a minimum of 15 credits as degree seeking students at UW-Parkside toward their associate degree.

UW-Parkside offers the following majors for associate programs:

- Arts and Sciences (AAS) (<https://catalog.uwp.edu/programs/associate-degree-programs/arts-and-sciences/>)

- Financial Economics (AS) (<https://catalog.uwp.edu/programs/associate-degree-programs/financial-economics/>)

- Physics (AS) (<https://catalog.uwp.edu/programs/associate-degree-programs/physics/>)
- Professional Studies (AA) (<https://catalog.uwp.edu/programs/associate-degree-programs/professional-studies/>)

Minor Programs

UW-Parkside offers over 50 undergraduate minors, which consist of a formally approved program of 15 or more credits. A minor is not required for graduation.

Minors are declared, changed or removed by filing the same plan declaration form used for declaring majors. Course work in the minor must be completed with the minimum GPA as specified by the department or program under which the minor falls, usually a 2.00 on a 4.00 scale, but higher in some programs. Transfer students must attain the minimum specified GPA on a combination of transfer credits accepted toward the minor and credits attempted at UW-Parkside. At least half of the course work for the minor must be completed at UW-Parkside.

UW-Parkside offers the following minors:

- Anthropology Minor (<https://catalog.uwp.edu/programs/geography-anthropology/anthropology-minor/>)
- Biological Sciences Minor (<https://catalog.uwp.edu/programs/biological-sciences/biological-sciences-minor/>)

Undergraduate Certificate Programs

Certificate programs are designed to develop a particular expertise or set of skills and normally consist of 9 or more credits. A minimum of nine credits in a certificate program must be taken at UW-Parkside. Individual departments and programs may require more than nine credits to be taken at UW-Parkside. Both degree-seeking and non-degree seeking students may pursue certificate programs. Certificate programs should not be confused with certification or licensure programs which lead to certification by an outside agency. Certificates are declared, changed, or removed by filing the same plan declaration form used for declaring majors.

UW-Parkside offers the following certificates:

- Adaptations to Global Climate Change Certificate (<https://catalog.uwp.edu/programs/geography-anthropology/adaptations-global-climate-change-certificate/>)

Flexible Option Programs

The UW Flexible Option is an innovative way to make degree and certificate programs more accessible, convenient, and affordable for adult and nontraditional students. The UW Flexible Option includes self-paced, competency-based degree and certificate programs that allow students to make progress by demonstrating what they know, whether that knowledge was gained through prior coursework, military training, on-the-job training, or other learning experiences.

- Agile Project Management Certificate Flexible Option (<https://catalog.uwp.edu/programs/flexible-option-programs/agile-project-management-certificate/>)
- Business Administration Major (BS) Flexible Option (<https://catalog.uwp.edu/programs/flexible-option-programs/business-administration-major/>)
- Business Analytics Certificate Flexible Option (<https://catalog.uwp.edu/programs/flexible-option-programs/business-analytics-certificate/>)

Concentrations for Flexible Option Bachelor's Degree Major

A number of undergraduate majors provide students with the option to pursue an area of emphasis within the major called a concentration. Some majors require a student to choose a concentration, others provide

them as an option to enhance their major. Concentrations are declared, changed or removed by filing the same plan declaration form used for declaring majors.

Business Administration Major (BS) Flexible Option Concentrations

- General Business Administration
- Business Analytics
- Agile Project Management

Pre-Professional Interests

Pre-professional interests pertain to preparation for professional study and to undergraduate interests not corresponding to UW-Parkside programs. A student may indicate one interest by submitting a plan declaration form to the department and may drop an interest or exchange interests by submitting another form. Special pre-professional advisors are assigned to pre-professional interest students. For those professions requiring an undergraduate degree prior to entry to professional school, students must also declare an academic major and any minor they plan to complete. As a result, students may be assigned to both an academic advisor and a pre-professional advisor.

Pre-Professional Programs

UW-Parkside offers special advising for students with pre-professional interests in the following areas:

- Architecture
- Athletic Training
- Chiropractic Medicine¹
- Dentistry¹
- Engineering²
- Genetic Counseling¹
- Health Professions¹
- Kinesiology
- Law
- Medicine (M.D. and D.O.)¹
- Occupational Therapy¹
- Optometry¹
- Pathology Assistant¹
- Pharmacy¹
- Physical Therapy¹
- Physician Assistant¹
- Podiatry¹
- Veterinary Medicine¹

¹ Because of the intensely competitive nature of the pre-health fields, students with 30 or more credits must maintain a cumulative GPA of at least 2.50 to be eligible for special advising in these interest areas. Students with GPAs below 2.50 will be counseled to re-evaluate their career plans and will be referred to the academic department of their chosen major and/or the Advising and Career Center for advice.

² The articulated pre-engineering/engineering agreement with UW-Milwaukee (UWM) creates a curriculum plan for students at UW-Parkside to complete and transfer coursework toward the first two years of a specified UWM engineering major in the College of Engineering and Applied Science (CEAS), and provides guaranteed

transfer to students who complete all articulated pre-engineering courses and UWM admission requirements.

Directed Study/Independent Study

Directed or independent study is available for credit in many majors and minors. It consists of focused study by an individual student or small team of students under the supervision of a faculty member. The value of

directed or independent study is in focusing on a well-defined topic and working closely with a member of the faculty or teaching academic staff. Directed or independent study is generally not intended for students who are near the beginning of their academic program. An agreement must be signed between the student and the faculty supervisor and approved by the department chair or program director at the start of the directed or independent study. All directed or independent studies must conclude with a completed paper, project, report, or other product. Consult each program section of this catalog for details.

Internships

An internship is a supervised discipline related work experience that integrates career relevant learning activities into a university education. Internships provide opportunities for students to develop and expand their knowledge and/or skills, gain experience in a work setting, put theory into practice, and expand awareness of potential careers. Internships often take place outside the university in a public or private-sector organization. Internships are offered for credit by most academic departments at the 400 level. Interns may be paid by the employer or may work as volunteers. An internship agreement describing the work involved, specific job duties, expected work products, and all required assignments must be in writing and signed by the student, faculty supervisor and the outside internship supervisor; and it must be approved by the department chair or program director by the start of the internship. An internship should include an experiential learning strategy, an emphasis on professional development, performance assessments, and student reflections. All internships must conclude with a completed paper, project, report or other product. Consult each program section of this catalog for details.

Air Force Reserve Officers' Training Corps (AFROTC)

UWP students have the opportunity to participate fully in the Air Force Reserve Officers Training Corps (AFROTC) Program through a partnership with the host Marquette University. Students enrolled in the Air Force ROTC program attend AFROTC courses at Marquette University. Through this program, UWP offers its students the opportunity to prepare for initial active duty assignments as Air Force Commissioned Officers. In order to receive a commission, AFROTC cadets must complete all university requirements for a degree and courses specified by the Air Force. AFROTC offers four- and three-year programs leading to a commission as an Air Force officer. Four-year program students complete the general military course and the professional officer course. Consult the Center for Professional Studies section of the catalog for more information.

Army Reserve Officers' Training Corps (AROTC) Program

UW-Parkside students have the opportunity to participate in the Army Reserve Officers' Training Corps (AROTC) through Marquette University. AROTC is a leadership development program consisting of three interconnected components:

1. on-campus,
2. off-campus and
3. the Leadership Development Program (LDP).

By design, the three components dovetail for seamless, progressive and sequential leader development and prepare men and women to receive commissions as second lieutenants in the U.S. Army, Army National

Guard, or the U.S. Army Reserve. Consult the Center for Professional Studies section of the catalog for more information.

Parkside Access to College Credits (PACC) Program

The Parkside Access to College Credit Program (PACC) allows eligible high school students to earn college and high school credit simultaneously by taking and successfully completing designated courses at their high school, known as concurrent enrollment. By taking college credit in high school, students also set themselves apart by demonstrating that they can succeed in college-level classes.
